# THE CASH MANAGEMENT SOLUTION FOR WORKERS' COMPENSATION PREMIUM PAYMENTS

XactPAY Web® Special Edition for QuickBooks® Users

Times are tough. As a business owner, you know how important it is to manage cash flow on a day-to-day basis. That's not always easy when you have to pay this year's Workers' Compensation premiums on last year's payroll numbers and begin your Workers' Compensation policy term by paying a deposit premium of 25%.

The Hartford has a solution.

XactPAY Web® allows QuickBooks® Payroll users to pay Workers' Compensation on *actual* payroll and on a pay-as-you-go basis. Your cash flow won't be negatively affected by a large deposit premium or by premiums based on inflated payroll numbers from previous years.

## How Does It Work?

It's this simple:

- If a Hartford Workers' Compensation policy is issued to you and you are a QuickBooks® Payroll user, just download the XactPAY Web® software from the XactPAY Web® site to your computer.
- Each time that you run payroll using QuickBooks®, XactPAY Web® calculates the Workers' Compensation premium for that payroll period.
- The Hartford will send you e-mail notification of the amount of premium due, which is then drawn electronically from your account.

## Enjoy These Benefits with XactPAY Web®

- Improved cash flow
- Elimination of large down payment
- Elimination of finance and billing fees

## Protection from a Workers' Compensation Leader – The Hartford

Employee injuries can be costly in terms of lost productivity, morale and future premiums. You can trust The Hartford to provide quality care to an injured worker while facilitating return-to-work and managed costs to help mitigate lost time and make the most of every health care dollar.

Why not get started today and call your local Hartford agent and put your Workers' Compensation premium payment worries to rest.
